

LIBTAYO Surround[®] Practice Administrator Educational Program

The LIBTAYO Surround Practice Administrator Educational Program is designed to educate Practice Administrators and office staff on topics related to access and reimbursement for LIBTAYO[®] (cemiplimab-rwlc), healthcare coverage, and trends in value-based care

The program is a peer-to-peer forum that facilitates discussion of real-world access and reimbursement experience with LIBTAYO as well as oncology access and reimbursement trends. It may be delivered by a Practice Administrator in person or via webcast.

The program consists of 5 modules:

- 1 Introduction to LIBTAYO
- 2 LIBTAYO Surround financial assistance programs
- 3 Navigating patient coverage scenarios
- 4 Value-based care
- 5 Overview of unbranded health plan resources

LIBTAYO Practice Administrator Educational Program

The Practice Administrator Educational Program is designed to educate Practice Administrators and office staff on topics related to access and reimbursement for LIBTAYO, healthcare coverage, and trends in value-based care. The program, which consists of 5 modules, may be delivered by a Practice Administrator in person or via webcast.

TOPICS

Below is a brief description of the information in each module

Module 1 Introduction to LIBTAYO	Provides information about LIBTAYO, including indications and Important Safety Information, NCCN recommendations for use, recommended dosing, and coding information
Module 2 LIBTAYO Surround financial assistance programs	Focuses on the financial assistance programs available from LIBTAYO Surround: the Commercial Copay Program and the Patient Assistance Program. Reviews the eligibility criteria for each program and how patients can apply/enroll
Module 3 Navigating patient coverage scenarios	Explores the many different types of patient coverage scenarios that you may encounter in your practice for patients prescribed LIBTAYO, and provides examples of programs and resources that may be available to assist with medication access
Module 4 Value-based care	Examines the ongoing trend toward value-based care, and provides insight into the impact on patient care
Module 5 Overview of unbranded health plan resources	Offers an overview of educational resources available from the representatives at LIBTAYO Surround. These resources have been developed to help inform patients about commercial and Medicare health plan coverage
